

Governor Newsletter

St George's CE First School

Dear Parents and Carers,

Welcome to our summer term Governor newsletter. As we end this school year, we would like to let you know about the work that we have been doing as Governors and how we have been supporting Mrs Bradbury and her team.

The Governors

Throughout the year, our Governing body has grown to a team of eight members. We have held half-termly meetings to review the progress the school is making and we have been lucky enough to visit and spend time in school, talking to pupils and staff, and say hello to parents on the school gate. It was wonderful to see the children so happy!

What have we focused on?

We have been very keen to find out about the breadth and balance of the curriculum on offer at St George's and have been finding out more by meeting with teachers, talking with the children and looking at books. Subjects of focus have been Computing, PE and History.

Safeguarding is always high on our agenda and visits have taken place to monitor and review aspects of safeguarding. Mrs Bradbury has met with the safeguarding governor, Mrs Ludden, who supports with this.

The children and staff are very pleased with the new technology that has been purchased with the money given to the school by the Directors of Endeavour Schools Trust. They say it has improved teaching and learning already! We hope to see it in action when we visit in the Autumn term.

The school is dedicated to achieving the best possible outcomes for your children and continuously reflect on the work that they do. They have invited educational professionals into school to support this review process. Whilst celebrating the positive feedback, they have also informed the governors of their actions and plans to make further refinements to teaching and learning.

The school's Christian ethos is very important and Rev Moloney has been working closely with Mrs Bradbury and Mr Rivett. Your children will know him from his assemblies.
